

Explore the tradition...

For almost half a century the Barbosa Cabinets brand has been synonymous with fine craftsmanship and beautiful finish selections.

Embrace the change...

As we turn the dial on almost fifty years, Barbosa's footprint has grown from a modest 2,500 sq. ft. to over 312,000 sq. ft. Typically such growth produces complexity. As your trusted cabinet manufacturer we have optimized our processes and standardized our collections to ensure you receive the finest finishes at the most attractive prices. We will continue to honor our heritage as we propel forward into the future with renewed energy and collective optimism. With over twelve door styles and six edge profiles, we are confident you will make Barbosa the heart of your home.

Door Style	Edge Profile
